Milestones and tasks of ETH students

ETH PhD students can submit the forms required by ETH instead of using the templates of BioMed – on the condition that they are signed by the student and committee members (at least your official supervisor). We would then no longer insist on the Biomed forms (Research Proposal, Progress Report, Minutes of the meeting) instead of those forms you can upload the forms of **D- HEST, D- BIOL or D- INFK**. ETH students admitted before 2022 can still use the regular Biomed templates.
