Mouse physiology and pathophysiology

Introduction to techniques such as animal husbandry, rodent diets, pain management, and imaging techniques as well as disease models. Discussion about resources and reagents available in Zürich.

The course is open to PhD students, postdocs, and all researchers (UZH and external). Students of the PhD Programs in Integrative Molecular Medicine (imMed) and Biomedicine (BioMed) and students of the Institute of Physiology have priority.

Date / time	June 9 and 10, 2022
Place / room	The course takes place on Campus Irchel
Type	Lectures and discussions
Preparation	None
Maximum participants	60
Recommendation	For students and researchers working with mice
Course coordinator	Lubor Borsig (lborsig@access.uzh.ch) Petra Seebeck (petra.seebeck@uzh.ch)
Further information	BioMed Coordinating Office (andrea.schmitz@uzh.ch)
Credit points	1 ECTS (short MC examination)
Registration fee	PhD students UZH/ETH: free UZH/USZ (also from ZIHP member groups): CHF 100 External participants: CHF 500
Note	Acceptance as advanced education (2 days) by the Federation of Swiss Cantonal Veterinary Officers (VSKT).
Registration	By e-mail to andrea.schmitz@uzh.ch until May 13, 2022
